

## ABBOTTS LAGOON PUBLIC TRAIL

Visited on 11 August 2008, 11 July 2009, 4 Sept. 2010, 2 Sept. 2012, 23 July 2016, updated Sept. 2019.  
 Compiled over many years by members of Marin Chapter CNPS, some recent updates made by Doreen Smith, etc.  
 The list includes off-trail areas to North of the trail as far as edge of the freshwater lagoon, the sand-dunes, also the hill and bluffs to the S. of the bridge. The ridge to the East of, and overlooking, the brackish lagoon, is especially rich in coastal prairie wildflowers in April and May. Some flowers in this area can be found continuing to bloom into September.
