

TOMALES BAY STATE PARK
FUNGI

Report of the fungal species seen, January 15th 2000

Amanita magniverrucata
Amanita muscaria
Amanita phalloides
Armillaria mellea
Boletus zelleri
Cantharellus cibarius
Clavariadelphus pistillaris
Daldinia grandis
Ganoderma applanatum
Gyromitra infula
Hygrophorus spp.
Inocybe pudica
Lactarius fragilis
Lactarius rufulus
Leccinum manzanitae
Leucopaxillus albissimus
Marasmius oreades
Mycena spp.
Naematoloma fasciculare
Paneolus campanulatus
Pleurotus ostreatus
Polyporus spp.
Ramaria spp.
Russula emetica
Russula rosacea
Sparrasis crispa
Stereum spp.
Suillus granulatus
Suillus luteus
Suillus pungens
Tremella lutescens
Tricholoma rutilens
